

First Steps into Plumbing

Course Overview

Come along and be introduced to our team of professional plumbers that will instruct you in basic techniques. On the First Steps to Plumbing course you will be shown different materials, taught how to adhere to health and safety when working with plumbing equipment and how to correctly cut and join both copper and push fit pipes. You will also interpret drawings to construct basic frames from various types of pipes used within the Plumbing industry today. This will lead to next steps into plumbing. (No previous experience required)
