

## Music Technology

Course Name	Start Date	End Date	Site
Music Technology Night School	16/01/2020	26/03/2020	College Main Site
Music Technology Night School	23/04/2020	02/07/2020	College Main Site

### Course Overview

On this new exciting evening class you will learn and develop basic skills in music production such as music theory, studio and software set up, workflow, writing, mixing and mastering and key software skills, through a series of workshops using music technology software. You will also discover key knowledge regarding digital music promotion, distribution and the music industry. This will lead to you creating a basic music track. No previous experience necessary.

### After The Course

You could enrol onto another Night School course or apply to progress onto our Foundation Degree in Media.

### What Will I Learn

You will learn how to use a variety of tools and techniques using Music Technology and Production software enabling you to create a digital sound track. You will also learn about music promotion, distribution and the music industry.

### Our Lecturers

Your lecturers are specialists in developing your skills to progress to your next level - most continue to work in the Creative Industries themselves!

### Teaching Learning and Assessment

Through structured, practical classroom activities and demonstrations using the Music Technology/Production software and Apple Mac resources provided. You will work on specific tasks with individual support from the lecturer.
