

## Digital Media Adobe Software Skills (Photoshop & Premier)

Course Name	Start Date	End Date	Site
Digital Media Adobe Software Skills (Photoshop & Premier)	16/01/2020	26/03/2020	College Main Site
Digital Media Adobe Software Skills (Photoshop & Premier)	23/04/2020	02/07/2020	College Main Site

### Course Overview

On this fun evening class you will develop basic Apple Mac and Adobe skills for making digital photos, images and short films using Adobe and Apple software and hardware. You will use Adobe Photoshop, learning image manipulation techniques to create photographic images. You will use Adobe Premier to create a short film. This will include developing the following skills: pre-production script writing; production, camera operation and filming; post-production editing. You will create a final digital file which could include any of the following: digital photos and a short film for your business; music video; a wedding or another family event. No previous experience necessary, but if you have you can still attend and extend your skills further. Everyone is welcome.

### After The Course

You could enrol onto another Night School course or apply to progress onto our Foundation Degree in Media

### What Will I Learn

You will learn how to use a variety of tools and techniques in Adobe Photoshop and Premier enabling you to create digital photographs and films.

### Our Lecturers

Your lecturers are specialists in developing your skills to progress to your next level - most continue to work in the Creative Industries themselves!

### Teaching Learning and Assessment

Through structured, practical classroom activities and demonstrations using the Adobe software and Apple Mac resources provided. You will work on specific tasks with individual support from the lecturer.
